

Our Lady of Guadalupe in Bronze

MODEL BS-1794 / BRONZE

The Our Lady of Guadalupe statue is rich in symbolism, representing a blend of indigenous and Christian beliefs. The image, particularly on Juan Diego's tilma, depicts Mary as a pregnant mestiza woman, conveying a message of hope and unity to both indigenous and European populations. Her posture, with hands clasped in prayer, and the angel below her, all carry significant meaning within the context of both Aztec and Catholic traditions.
