

82" Life Size Bull Statue in Bronze

MODEL BS-1813 / BRONZE

This commanding life-size sculpture captures the raw power and untamed spirit of a charging bull. Crafted from premium, hot-cast bronze using the traditional lost-wax method, the piece showcases an intricate, muscular physique in a state of dynamic motion. The surface features a deep brown, hand-applied patina with subtle golden highlights that catch the light, emphasizing the creature's defined musculature and tense, aggressive posture. With a lowered head, flared nostrils, and wickedly curved, polished horns, this masterpiece embodies resilience, strength, and unstoppable momentum, making it a focal point for any, indoor or outdoor, setting
