

Dolphin Statue in Solid Granite

MODEL MS-1670 / HAND-CRAFTED GRANITE

A hand-carved solid granite dolphin statue depicting a leaping dolphin cresting a wave base, rendered in warm beige and tan granite with flecked gray and rust toning throughout. The sculpture is carved from a single block of granite, with the dolphin's arched body and textured wave base worked to a honed matte finish that highlights the stone's natural grain. At 65 inches tall, it suits a garden, pool surround, or coastal courtyard as a freestanding focal point.
